# *The Gold Standard in Plastic Fabrication*

You don't become the gold standard overnight. You do it over decades, earning the reputation customer by customer, day by day.

From design to prototyping to manufacturing to fulfillment, you can expect an experience that's as refined and satisfying as the superior styling and performance of the products we deliver.

That's why hundreds of manufacturers and retailers have been turning to Aubright to meet an array of exacting challenges since 1983. Today, we continue to grow our capabilities while taking on increasingly sophisticated applications – because we know you're counting on us to stay ahead of your evolving needs.

# Sophisticated Craftsmanship, a Meticulous Process and Exceptional Results

**Aubright has grown to become one of America's premier custom sheet plastic fabrication companies.**

Manufacturers, retailers and other businesses across the United States partner with Aubright for highly specialized products both large and small. As a woman-owned enterprise that's been exceeding customer expectations for over three decades, we're excited to take on your challenges.

Component parts fabricated to precise tolerance requirements. Specially sized or distinctly shaped retail products. Unique display fixtures for your newest product launch. Whatever you need, you can count on our team of over 100 dedicated professionals to deliver the best results out of our 80,000-square-foot, ISO 9001:2008-certified facility.

The keys to success include a thorough design and development process, a range of precision fabrication capabilities and rigorous quality standards – all delivered with the refined skill and sense of urgency that today's tight timelines and demanding applications require.

**Challenge Our Team**

*Retail displays at major department stores*

*Custom visual merchandising for global consumer brands*

*OEM components for manufacturers nationwide*

*Product display stations for national telecomm outlets*

*Windshields for boats, UTV/ATV, motorcycles and snowmobiles*

## ***Our Service Capabilities***

Offering on-site, in-house expertise from inception through completion of your project means faster service, cost-effective pricing and greater control over all aspects of design and manufacturing. It's all part of our commitment to providing exactly what you need, when you need it and how you want it delivered.

- *Design & Engineering*
- *Project Management*
- *CAD/CAM Drawing*
- *3-D Modeling*
- *In-House Prototyping & Mold Making*
- *Component Assembly*
- *Sheet Distribution*
- *Fulfillment & Warehousing*
- *Custom Packaging & Shipping*
- *Logistics Management*

---

## ***Our Production Capabilities***

Hand-in-hand with our in-house services and support expertise, you'll also find some of the most specialized technical capabilities in the plastic fabrication industry. Whether your specific project requires large or small format capability, we can produce it efficiently and cost-effectively.

- *CNC Routing*
- *Drape Forming*
- *Vacuum Forming*
- *5-Axis Routing*
- *Custom Fabrication*
- *Screen Printing*
- *Digital Printing*

## Everything You Need to Bring Your Product Vision to Life

Starting with our design engineering team, we'll work with you to identify your requirements and vision. We'll also provide ideas and suggest modifications to help you save money, maximize efficiency and achieve the desired results.

Using the latest CAD/CAM and 3D modeling technology, our team will create production drawings to ensure your component, product or display fixture is built to your exact specifications.

We'll quickly and efficiently provide you with a production-ready prototype made in-house so you can see, touch and feel how your finished product will look.

Using cutting-edge CNC routing, vacuum forming, drape forming, printing and other state-of-the-art equipment and technologies, our production team will manufacture, brand, package and ship exactly what you need – wherever it needs to go.

Every step of the way, our experienced account executives and support team will stay connected with you, answering your questions and communicating the progress of your project.

## Solving an Array of Challenges

- Components for medical devices
- Museum quality fixtures
- Retail product merchandising fixtures
- Amenity organizers at major coffeehouses and restaurants
- Recreational vehicle accessories
- And more!

## Understanding the Unique Requirements of Multiple Industries

*Aubright offers the precise quality standards, proven processes and refined skills necessary to satisfy both customer and market needs.*

### Visual Merchandising & Retail Displays

Creative, memorable and effective results in everything from the distinctive perfume displays at department store cosmetics counters to elaborate cellular phone product stations with light, sound and graphics.

### OEM Parts

Tight tolerances and quick turnarounds for small or large components used in food service, agriculture, medical and other industries.

### Powersports

Balancing rugged functionality with sleek appearance in windshields, dashboards and a variety of accessories for leading brands in boats, UTV/ATV, motorcycles, snowmobiles and other outdoor products.
